To send your work:
 Once you are done, save your work, by pressing "keep." This will save your project to the journal. Once you have saved, click on your journal. You should see your project as the most recent on the list. It should be called "turtle art activity" click on this writing and change the name to your name.
 Then find a location with Internet access and log onto your email. Open a new message and click "attach file" or "attachment," etc. You should look for your project. Double click on your project, so that it is attached to your email. Write anything in the message that you want me to know about you. For example, how old are you? What grade are you in?
