

XO Time - week 2

Hello my friends!

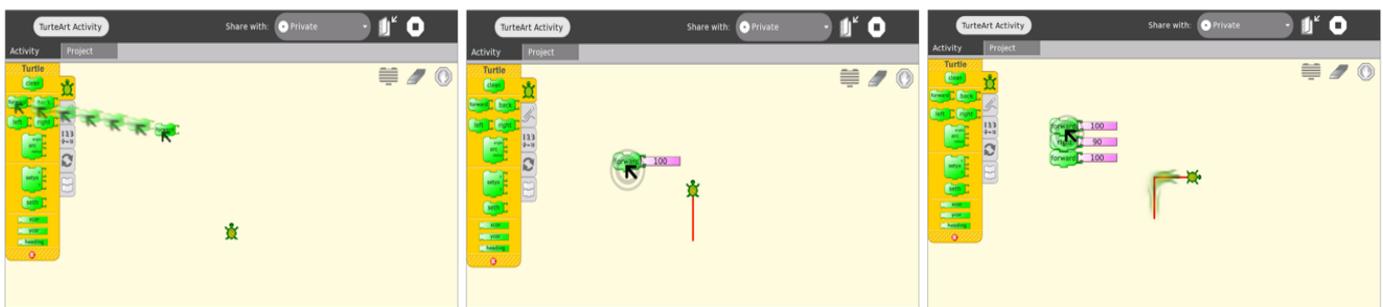

I am so happy in receive your projects in Turtle Art!
Next week I am going to share some of them with you.

If we didn't read the article from last week, you can find it at http://wiki.laptop.org/go/XO_Time

I am so excited with the shapes you created that I was wondering if is also possible to teach the Turtle to draw a house using Turtle Art. Do you know how to do it? Can you show me how your Turtle Art house looks? Are you able to do a script to draw a house?

Remember, to do the script you drag and drop the commands to screen and connect them. To see what happen, just click over the scripts. To erase your draw, click over erase .

Here are the scripts that I used to teach the Turtle to draw a square, a circle and a triangle:

Script to draw a square.

Script to draw a Triangle.

Script to draw a circle.

DOUBLE CLICK over the script to execute

I have an idea! Try to use the change the colors of your house so it is not just red, like the color of my shapes. Use the "pen" option to change your colors.

Change pen size, color & shade here. Try to change the numbers around

Don't be scared to make mistakes and try things out!
